

E-bulletin May 1st 2009

Recession related events

Dear members,

Paul Bramwell, of the Working Together Project, informs us of the following :-

Please find attached information relating to two events taking place in Brighton and Hove in May and June in relation to the recession: the first for representatives from larger voluntary organisations and the second a wider partnership conference. Third and public sector colleagues from East and West Sussex are welcome to join these events. The learning and issues discussed will be relevant cross-Sussex and we are keen to see as broad a range of organisations represented from both urban and rural areas. It would be great if you were able to promote these to your networks. While the initial publicity looks a bit Brighton & Hove centric, the full programme will be much more balanced and offer practical help. Do get in touch if you've any queries.
